

AGM Report

St John's Cathedral Sanctuary Flower Guild 1924/2025

I am delighted to report that the 5 groups of dedicated ladies who manage to create and enhance our Cathedral each week are all very happy to be part of our team.

We welcomed Pip Brooker, Margaret Husheer and Jeanette Dunderdale to our group and sadly said goodbye to Wendy Probert who moved to the Marlborough sounds last year. Her input has been missed as she always had some new creation up her sleeve to encourage us.

When flowers are needed for a special occasion, the ladies have rallied around and been part of arranging and collecting beautiful material from endless gardens to display.

The artificial flowers have helped when flowers are scarce, but we are investigating a more suitable way to store them as the current cupboard makes them difficult to access.

Thank you to all who have offered flowers from their gardens, which is always a help as many gardens now are too small to have suitable material to use. If you have something to donate for a Sunday, please either give the office a call or give me a ring.

We are always looking for new members to enjoy our team as "many hands make light work". Sharing ideas and love of our creation makes it a very special way to offer your time in a meaningful and spiritual way.
